2012 Postgraduate Taught Experience Survey (PTES) Results Summary

Introduction
This report provides a summary of the results of the PTES 2012 survey of current School master’s degree students, held between 11 April and 11 June 2012. The 2012 survey is the first time that the School participated in the PTES.

Summary of results
- **The School received a much higher response rate than the national average.** 92 respondents completed the survey representing a 44.7% response rate. The national response rate was 24.7% (54,640 students).
- **There were responses from students of the majority of the School’s master’s degrees,** although in some cases there was only one response, which skews the Institute- or degree-specific results.
- **The majority of respondents are UK-domiciled students:** 59% were UK, 17% other EU and 24% overseas.
- **While the majority of respondents hold full-time study status (52%), more than half are working in paid employment while studying (56%).** Of those students in paid employment, 42% are working more than 30 hours per week. Different levels of support and flexible study arrangements are important to working students, a growing trend among postgraduate students, especially in the humanities and social sciences.
- **The overall level of satisfaction experienced by respondents is good, with 91% of respondents stating that their expectations were either met or exceeded.** Areas where expectations had not been met were in organisation and management and in career and professional development.

*Initial satisfaction levels are on the whole higher than the national averages.*

Survey Results: Demographics

Fee status of respondents

- Home (UK): 54%
- Other EU: 15%
- Overseas (non-EU): 22%

Study status of respondents

- Full-time: 44%
- Part-time: 48%

Type of learner

- Primarily a face to face learner: 94%
- Primarily a distance learner: 6%

Employment status

- Currently in paid employment: 50%
- Not currently in paid employment: 40%

Hours of paid employment in a typical (term-time) week

- 1-10 hours: 13%
- 11-20 hours: 21%
- 21-30 hours: 27%
- More than 30 hours: 6%

Source of funding

- Self-funded: 71%
- Charity: 3%
- Institution (e.g. bursary, scholarship, waiver): 7%
- Employer: 1%
- UK Government: 1%
- EU Government: 1%

Age range of respondents

- 25 years old or younger: 3%
- 26-30 years old: 7%
- 31-35 years old: 15%
- 36-40 years old: 7%
- 41-45 years old: 21%
- 46-50 years old: 4%
- 51-55 years old: 8%
- 56 years old or older: 35%

Gender

- Female: 56%
- Male: 44%
Survey Results: Quality of teaching and learning

Respondents marked the extent to which they agree with each programme as follows:
5 = definitely agree, 4 = mostly agree 3 = neither agree nor disagree, 2 = mostly disagree, 1 = definitely disagree

97% of respondents felt that the quality of teaching overall was either consistently good or variable but generally good.

Satisfaction with teaching and learning methods

Overall impression of teaching quality
